

NEW GENERATION FERTILIZER

PELLET FERTILIZERS

ADVANCED WATER-SOLUBLE GRANULES FOR MODERN AGRICULTURE

PVEX – Phong Vu’s pellet fertilizers represent a new generation of fully water-soluble NPK granules designed for efficient and modern farming systems. Each pellet is manufactured with advanced granulation technology, ensuring uniform nutrients and quick dissolution without clogging irrigation systems.

Key Advantages:

- **Non-caking and non-clogging**, ideal for drip and micro-irrigation.
- **Fully water-soluble** with rapid dissolution.
- **Uniform pellet structure** delivering consistent nutrition.
- **Versatile use:** fertigation, foliar spray, or broadcasting.

Pellet

NPK 30-10-10

INGREDIENTS:

Nitrogen (N): 30%;
Phosphorus (P₂O₅): 10%;
Potassium (K₂O): 10%;
Chelate Mg: 300ppm;
Chelate Zn: 600ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets.
- Fully water-soluble
- Fast absorption, easy to use
- Suitable for various crops

USAGE & BENEFITS:

- Boosts strong growth and green leaves
- Enhances roots, flowers, and fruit size
- Improves yield and resistance

Pellet

NPK 6-32-32

INGREDIENTS:

Nitrogen (N): 6%;
Phosphorus (P₂O₅): 32%;
Potassium (K₂O): 32%;
Chelate Mg: 300ppm;
Chelate Zn: 500ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets.
- Fully water-soluble
- Fast absorption, easy to use
- Suitable for various crops

USAGE & BENEFITS:

- Strengthens root system
- Enhances nutrient uptake & drought tolerance
- Promotes flowering, fruit setting, and size
- Supports photosynthesis and plant vigor

Pellet

NPK 20-20-20

INGREDIENTS:

Nitrogen (N): 20%;
Phosphorus (P₂O₅): 20%;
Potassium (K₂O): 20%;
Chelate Mg: 300ppm;
Chelate Zn: 50ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, balanced NPK formula
- Fully water-soluble, quickly absorbed

USAGE & BENEFITS:

- Supports overall plant growth and fruit formation
- Enhances photosynthesis and crop productivity

Pellet

NPK 10-55-10

INGREDIENTS:

Nitrogen (N): 10%;
Phosphorus (P₂O₅): 55%;
Potassium (K₂O): 10%;
Chelate Mg: 300ppm;
Chelate Zn: 700ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, high-phosphorus formula
- Fully water-soluble, fast absorption

USAGE & BENEFITS:

- Stimulates root and flower formation
- Enhances nutrient uptake and crop yield

Pellet

NPK 16-5-30

INGREDIENTS:

Nitrogen (N): 16%;
Phosphorus (P₂O₅): 5%;
Potassium (K₂O): 30%;
Chelate Mg: 300ppm;
Chelate Zn: 500ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, fully water-soluble
- Easy to absorb, suitable for various crops

USAGE & BENEFITS:

- Promotes strong, sturdy growth
- Enhances fruit firmness, color, sweetness, and shelf life
- Supports photosynthesis and boosts yield

Pellet

NPK 7-7-49

INGREDIENTS:

Nitrogen (N): 7%;
Phosphorus (P₂O₅): 7%;
Potassium (K₂O): 49%;
Chelate Mg: 50ppm;
Chelate Zn: 50ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, fully water-soluble
- Fast absorption, easy to use

USAGE & BENEFITS:

- Enhances fruit firmness, color, sweetness, shelf life
- Promotes stable growth without overgrowth
- Boosts photosynthesis and resistance

Pellet

NPK 3-35-15

INGREDIENTS:

Nitrogen (N): 3%;
Phosphorus (P₂O_{5hr}): 35%;
Potassium (K₂O_{hr}): 15%;
Chelate Mg: 100ppm;
Chelate Zn: 80ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, high-phosphorus content
- Fully water-soluble, easy to absorb

USAGE & BENEFITS:

- Stimulates strong root and flower formation
- Boosts early growth and fruit development
- Enhances resistance and nutrient efficiency

Pellet

NPK 10-0-30

INGREDIENTS:

Nitrogen (N): 10%;
Potassium (K₂O_{hr}): 30%;
Chelate Mg: 100ppm;
Chelate Zn: 80ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, phosphorus-free formula
- Fully water-soluble, quickly absorbed

USAGE & BENEFITS:

- Promotes fruit development and sugar accumulation
- Suitable for later stages of crop growth
- Enhances resistance, photosynthesis, and fruit quality

Pellet

AT ROOTING

INGREDIENTS:

Magnesium (Mg): 22000ppm;
Boron (B): 1500 ppm;
Chelate Fe: 12000 ppm;
Chelate Mn: 7000ppm;
Chelate Zn: 50000ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, concentrated micronutrient mix
- Fully water-soluble, fast and effective uptake

USAGE & BENEFITS:

- Corrects multi-micronutrient deficiencies
- Enhances photosynthesis and plant vitality
- Improves flowering, fruit set, and overall crop health

Pellet

NPK 4-18-44

INGREDIENTS:

Nitrogen (N): 4%;
Phosphorus (P₂O_{5hr}): 18%;
Potassium (K₂O_{hr}): 44%;
Chelate Mg: 100ppm;
Chelate Zn: 80ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, high-potassium formula
- Fully water-soluble, fast absorption

USAGE & BENEFITS:

- Enhances fruit color, sweetness, and shelf life
- Promotes strong flowering and fruit setting
- Boosts resistance and photosynthesis

Pellet

KALI MG - S

INGREDIENTS:

Potassium (K₂O_{hr}): 22%;
Sulfur (S): 18%;
Chelate Mg: 10%;
Chelate Zn: 50000ppm;
Chelate Mn: 1500ppm;
Chelate Ca: 50 ppm;
Moisture: 5%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, phosphorus-free formula
- Fully water-soluble, quickly absorbed

USAGE & BENEFITS:

- Promotes fruit development and sugar accumulation
- Suitable for later stages of crop growth
- Enhances resistance, photosynthesis, and fruit quality

Pellet

SUN COMBI

INGREDIENTS:

Nitrogen (N): 5%;
Sulfur (S): 50000ppm;
Boron (B): 1500ppm;
Chelate Mg: 20000ppm;
Chelate Zn: 50000ppm;
Chelate Mn: 1500ppm;
Chelate Ca: 50 ppm;
Moisture: 10%;

PACKAGING:

- 25 / 50 / 500 / 1000kg
- Customized on request

FEATURES:

- 1.7mm pellets, rich in secondary & micronutrients
- Fully water-soluble, easy to absorb

USAGE & BENEFITS:

- Corrects micronutrient deficiencies effectively
- Enhances plant metabolism and growth
- Improves resistance, flowering, and fruit quality

Other customized formulas at your requests are available.
